- **Dayton Courthouse Museum** (Scopes Evolutionary Trial)

**Pretty Colors are Coming!** It's almost fall and we are ready for this colorful change after our hot summer! The cooler weather feels great although there is still enough sunshine and heat during the day to keep us happy campers! Lots of nearby waterfalls, rivers and lakes to explore including the recently opened Rhea Springs Lake Park (just opened Labor Day 2011 after being closed for several years). Although still in the renovation stage this pretty lake park is close by and offers lake swimming, fishing, hiking and boat ramp). If you prefer a bit of horse back riding we have Pioneer Farms in Spring City that gives private lessons or Wildwood Stables in Crossville that offers guided trail rides. Lots of hiking around too... your cabin has tons of info on hiking or ask us! Hot tub soaks under the stars ! Roast marshmallows and make smores at your outdoor fire pit, grill on the deck and sleep in the hammock... We even have a masseuse who will come to your cottage if you like! Life's hard in the country! Hike around the farm and enjoy! Fish at our pond (no license required). Enjoy!

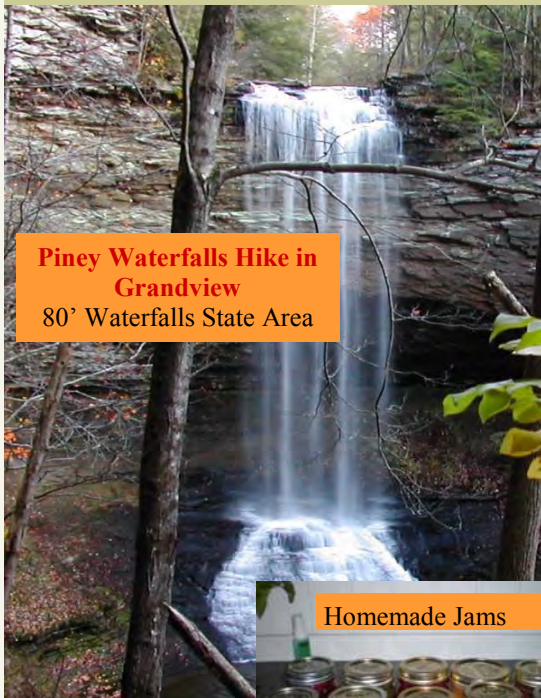

Our organic garden is watched over carefully by Mr. and Ms. Scarecrow and they love for you to visit. Our garden produces tomatoes and bell peppers usually into October and other fall crops like lettuce, onions, spinach. Homemade jams, farm honey & other goodies available year round at our farmhouse while supplies last. Fresh herbs too!

**Our Stagecoach Trail** actually begins as the driveway you drove in on (an original stagecoach trail in the 1800s/horses were watered at our farmhouse) and continues down past our farmhouse's back pasture. It goes out a little ways into the back forest where you'll find the cut off to the Fern Trail (an extension to Stagecoach Trail will be ready fall of 2011) Entrance to the trails is at back of the farmhouse's back pasture or you can also start the Fern Trail at big bend in driveway and go the other direction.

**Our Fern Trail** takes about an hour to complete and is moderate in difficulty. On the Fern Trail, you'll pass over a large stream with a small bridge. In early summer luscious green ferns blanket the forest floor under 100 foot high Tulip Poplar trees— Fern Valley! As summer gets dryer... they disappear but sometimes crop up again in fall to say hello. **If you are hiking in the woods early fall wear insect repellent and check for ticks and stay on trails to avoid poison ivy and chigger bites! Vinegar works well for bites and cold showers for poison ivy! The ticks in our area do not carry any diseases and are really just a nuisance.**

# NEARBY ADVENTURES

**Piney Waterfalls Hike in Grandview**  
80' Waterfalls State Area

**Piney River Park in Spring City**  
Twin Loop Overlook Trail (2 mi) & Piney River Trail (10 mi) plus river playing and splashing...
