We love every season but there is something about summer that just makes us kick off our shoes and smile at the world a little bit more. Fresh garden salads and veggies everyday make for mouth watering meals. Nearby lakes & rivers entice us to take a dip. Fireflies light up the night and sitting outside at night by a summer fire or taking a late night hot tub soak under the stars is a magical experience.

Whether it's a nap in the hammock, star gazing, a garden workshop, a hike through the magical fern forest, a game of horse shoes, toasting marshmallows or a fishing pole dangling at our spring fed fish pond, we figure you'll enjoy the moment and remember what life is all about. When you don't feel like cooking, we invite you to check out Papa Phil's summer menu and let us cook for you! You'll have the time you need to sleep, talk and reconnect ...

Papa Phil's Full Country Breakfast with all the fixings now delivered to your cottage door!

We'll still serve you at our farmhouse, but if you want the full spread delivered to eat on your deck, well we can do that too! Check out our expanded menu options in our cottage menus. We don't want you to go hungry!

Sheila Ray, Master Bee Keeper, with her husband checking our honey bee hives! Organically raised bees and pure raw honey full of mother nature's sweetness.

Grandview Mountain Honey (currently sold out) should be available soon!

The hiking award of this spring goes to David and Nancy who celebrated their 22nd wedding anniversary at Grandview Mountain Cottages in May. They not only hiked to the top of nearby Piney Falls (2 miles, fairly easy), but also hiked the **very-difficult-to-find-trail to the bottom of the Falls and the huge pool of water below and made it back to the top to tell about it.** They also walked behind the 80' drop of water on a rock ledge.

Congratulations!
